**BUSINESS TIANJIN**

Gaining a strong reputation as the fastest-growing IB World School, which is offering unique international and bilingual education for foreign and Chinese students, the Beijing International Bilingual Academy (BIBA) has opened three campuses since its establishment in 2006.

Tianjin Campus is the second campus of BIBA and it is a vibrant international boarding school, which prides on forming students to become internationally-minded bilingual ambassadors and champions of inter-cultural understanding, respect and integration in a dynamic global community. We have the opportunity to interview Joseph J. Azmeh, Executive Head of School, Tianjin Campus of BIBA and feature in our cover story. It was a real pleasure talking to Joseph and learning the noble spirit behind BIBA and his passion as an educator.

---

We laud BIBA and Tianjin Campus' excellent facilities, fantastic team of foreign and local teachers & administrative staff and this great opportunity to enrol our kids in this unique international and bilingual learning environment.

From the macro economy point of view, China has witnessed a rebound, as indicated by the recently released numbers. Retail sales, industrial production, fixed asset investments, and trade balance saw positive developments. Some economists believe that the government's efforts to stimulate the economy are showing some effects. The progress made in the trade talks with United States has contributed to the improvement.

Michael Hart, who has spent more than 20 years in China in the commercial real estate industry and over a decade of that time in Tianjin, provides us with an excellent explanation how to benchmark our Real Estate Cost. Don't miss it!

Our column Last Word is dedicated to the Great Wall Marathon that has the reputation for being one of the world's toughest marathon courses for competitors to compete on. It will take place on 18th of May, 2019. You can read the details inside of this issue.
